RIGHT AHEAD

SPECTRA® RIGHT AHEAD | 25Th YEAR CELEBRATION

We are solely focused in providing reliable identity solutions. With strong product development experience of more than 24 years, we have traveled a long way in understanding industry specific needs and enhancing our solutions accordingly. Yet the journey seems to have just begun.

Product Development & Manufacturing

Our core strength is in-house product development of hardware devices and software applications. As a product company, we focus on constant innovations in ever changing technology landscape.

We adhere to stringent quality controls for manufacturing. Advanced machines like automated pick and place SMT assembly line are part of infrastructure to support the same. Equipped with sound technical resources, we are in a position to customise products as per specific request though standard offerings suffices most of requirements.

Evolved Solution Offerings

Having catered to varied industries, we have gathered sound knowledge bank of industry specific challenges & solutions. This has helped us immensely in developing in-depth holistic solution for each application.

On solution side, we have an expertise in implementing enterprise wide identity solution for time & attendance, access, canteen & visitor management, all on a single platform. This assists in harmonising all different locations of an organisation and thus user experience remains constant throughout the enterprise.

Wide Spread Partner Network

We have three branch offices and vast network of value added channel partners. All our partners are technically well qualified and trained on our products for both pre-sales queries and post sales support.

We have built up a commendable network of implementation partners including system integrators, resellers, software houses etc. across the nation. This has helped us to expand our reach and penetrate the marketplace better in short span of time, creating mutually beneficial business opportunities.

Excellent Post Sales Support

Customer success is part of our core value system and help us nurture long term client relationships. All our team's efforts are channelized towards achieving that preset goal.

We have two dedicated customer success help desks to cater all the post sales customer queries and resolutions apart from need based regional on-site support. We also conduct periodical training for our partners to keep them updated on all latest upgrades and new product developments.

KEY MILESTONES

We have been successful in creating a strong brand value for ourselves with steady growth of loyal partners and invaluable customers. We take this as a responsibility and stand committed towards them.

SOLUTION OFFERINGS

Benefited from solid ground level industry experience on each of the applications all these years, our various products have passed through grilling product enhancement cycle making them truly robust & reliable.

We are sincerely thankful to all our customers and partners for their regular feedback and invaluable suggestions to help us innovate constantly.

TIME ATTENDANCE

It is the backbone of spectra solutions array. Experience taught us a lot about complicated, fragmented, industry specific nature of T&A. While others fret over it, we kept learning and improvising our solution. Thus here we are, with a solution that can perfectly fit to any industry.

PHYSICAL ACCESS CONTROL

Our celebrated access control solutions are widely used by many large corporate. We bring on table absolute reliability & minimal downtime to arrest critical failure that may expose restricted areas to external threat. Our advanced cutting edge 3S series products has top notch features parallel with the best in the industry.

VISITOR MANAGEMENT

This application has finally got attention that it deserved. Credit goes to rising security concerns & regulatory audit requirements. Our visitor management offering works standalone as well as in sync with access control, facilitating complete check over visitor movement within the premises.

CANTEEN MANAGEMENT

Sound value added product, this solution makes handing out the subsidized canteen benefit to the employees easy and effortless. We not only remove coupons by making operation cashless but help in managing the vendors too. Additionally the same access, attendance identity credentials can be used here.

CONTRACT COMPLIANCE

Most corporates employ contractual workforce through various contractors and thus need to maintain strict labour compliances as per law. This compliance module has comprehensive solution to record and monitor various contract related informations along with workforce attendance and workflows on a single database.

DOOR INTERLOCKING

This system is predominantly used for clean rooms, pass boxes in pharmaceutical industry to maintain positive air pressure in a designated area. We have complete range of products to cater customer needs with advanced features like field configurable door matrix, integration with fire/access panels, no touch IR switches.

BioScribe 3S

Radically advanced and most sophisticated spectra biometric device so far, innovation at its best.

Key Features

- Highly secured communication with TLS 1.2
- Lightning-fast, high-accuracy fingerprint sensor
- 250K users and 500K transactions storage
- Multifactor check (Finger, CARD, PIN, BLE)
- Client branding with logo & wallpaper

BioStamp 3S

A new generation of biometric device with perfect blend of quality, aesthetics and spectra trust.

Key Features

- Future-ready device with IPv6 and TLS 1.2
- Indoor/Outdoor application with IP65 housing
- Sleek and stylish aesthetics
- 250K users and 500K transactions storage
- Multiple RFID card technology options

FaceScribe Plus

Go touchless and beyond with the next generation facial recognition device.

Key Features

- Live face and mask detection
- Rugged device with metal enclosure
- 3D-noise reduction with fog-resistant camera
- Indoor/outdoor application with IP66 housing
- 30K users and 500K transactions storage

DUAL CAMERA

LIVE FACE RECOGNITION

VIDEO-AFFILIATED FEATURES

MASK DETECTION

IP66 RATED HOUSING

OPTIONAL GSM

OPTIONAL TEMPERATURE DETECTION

INBUILT CARD READER

INBUILT TOUCH SCREEN

AUX.LIGHT SOURCE

Application Areas Attendance Management | Access Control

BioRover 4S

Go mobile, unique handheld biometric device to explore the uncharted application areas.

Key Features

- 250K users and 500K transactions storage
- High-speed fingerprint sensor with encryption
- Multi-factor authentication (Finger, RFID, PIN)
- Highly secured with TLS 1.2 and 802.1X WiFi
- Multiple RFID card technology options

3.5” COLOUR TFT

32 BIT, 1.5 GHz QUAD CORE PROCESSOR

8GB DATA FLASH 1GB RAM

ULTRA FAST FINGER PRINT SENSOR

INBUILT USB 2.0

SUPPORTS MQTT, SSL

5000 MAH LITHIUM POLYMER BATTERY

INBUILT WIFI

OPTIONAL GSM

INBUILT BUZZER

Application Areas Attendance Management | Canteen Management

UniStamp 3S

Elegant and power packed access control device with top notch, best in class features.

Key Features

- Mobile phone-based user identification
- Power over ethernet (POE) supported device
- Multiple RFID card technology supported
- Configurable as reader or controller
- 250K users and 500K transactions storage

2.8" COLOUR TFT

32 BIT, 200 MHz PROCESSOR

16GB DATA FLASH

MULTIPLE RFID TECHNOLOGIES

ULTRA SLEEK DESIGN

IPv6 READY (POE SUPPORTED)

IP65 RATED HOUSING

FIELD UPGRADABLE SOFTWARE

TAMPER DETECTION

Application Areas Access Control | Attendance Management | Canteen Management

BLUETOOTH ENABLED MOBILE ACCESS

In our endeavour to incorporate latest technology, bluetooth is added in hardware devices. This opens up possibilities of accessing doors with mobile phones, ensuring high security & ease of operations.

TAP AND GO

SECURE HASSLE FREE ACCESS

SUPPORTS IOS & ANDROID PLATFORM

CENTRALLY CONTROLLED BLUETOOTH TAGS

FULLY ENCRYPTED COMMUNICATION

Compatible Devices

- BioScribe 3S
- BioStamp 3S
- UniStamp 3S
- XsPoint Plus

TwinXs 3S

Two doors access controller, intelligent device fueled with highend specifications.

Key Features

- Smart controller with multiple access rules
- Highly secured with OSDP/TLS 1.2
- Multiple programmable inputs/outputs
- Supports 10/100 Mbps communication
- 250K users and 500K transactions storage

2 DOOR/4 READER CONTROLLER

32 BIT, 200 MHz PROCESSOR

16GB DATA FLASH

COMPACT DESIGN

LOCAL PROGRAMMING

WIEGAND/OSDP INTERFACE

FULLY PROGRAMMABLE I/O's

BUILT IN 10/100 MBPS ETHERNET

CAN BUS RS232/ RS485 PORTS

SUPPORTS HTTP, FTP, SNMP, NTP, SSL

Application Areas Access Control

TwinXs 3S RAC

Two door rack access controller, intelligent device fueled with highend specifications.

Key Features

- Compact controller with rack mounting
- Inbuilt UL approved power supply
- Highly secured with OSDP/TLS 1.2
- 10/100 Mbps & RS485 communication
- 250K users and 500K transactions storage

2 DOOR/4 READER CONTROLLER

32 BIT, 200 MHz PROCESSOR

16GB DATA FLASH

COMPACT DESIGN

RACK FORM FACTOR

WIEGAND/OSDP INTERFACE

FULLY PROGRAMMABLE I/O's

BUILT IN 10/100 MBPS ETHERNET

RS485 PORTS

SUPPORTS HTTP, FTP, SNMP, NTP, SSL

Application Areas Access Control

BioScribe 2C

Sharp looks & add-on features with field proven, time tested hardware define this device offering.

Key Features

- Fingerprint sensor with best-in-class perfomance
- Multiple RFID card technology options
- Device-level registration via touchscreen
- Optional 2 hours battery backup
- Optional GSM – 2G/3G/4G supported

RUGGED OPTICAL FINGERPRINT SENSOR

3.5" COLOUR TFT WITH TOUCHPAD

SCULPTED FINISH

OPTIONAL 2 HRS. BATTERY BACKUP

OPTIONAL GSM

Application Areas Access Control | Attendance Management

BioStamp 2C

Sleek and smart biometric access controller, aptly combines high aesthetics with robustness.

Key Features

- Tricolor LED and buzzer for various events
- Indoor/Outdoor application with IP65 housing
- Multiple RFID card technology options
- Combination of card/finger authentication
- Tamper-detect with advanced sensor

RUGGED OPTICAL FINGERPRINT SENSOR

IP65 RATED HOUSING

ULTRA SLIM DESIGN

FIELD UPGRADEABLE SOFTWARE

TAMPER DETECTION

Application Areas Access Control | Attendance Management

XsPoint

Highly reliable and secure contactless card reader for access control solution with life time warranty.

Key Features

- Compact design and sleek aesthetics
- Highly secured OSDP protocol
- Tricolor LED and buzzer for various events
- Supports proximity, Mifare and DESFire
- Weather-proof housing with IP65 rating

MIFARE/EM CARD READER

WEIGAND/ CLOCK DATA/RS232

TRICOLOUR LED

OSDP PROTOCOL

IP65 RATED HOUSING

Application Areas

Access Control

XsPoint Plus

Highly reliable and secure contactless MultiTag reader for access control solutions.

Key Features

- Elegant design with cutting-edge technology
- Supports multi-card, QR code and Bluetooth
- Highly secured with OSDP protocol
- Tricolor LED and buzzer for various events
- Standard 2 module gangbox mounting

BLUETOOTH SUPPORT

IP65 RATED HOUSING

QR CODE READER

OSDP PROTOCOL

MULTIPLE RFID TAGS

Application Areas

Access Control

QuadXs 2C

Most rugged four door/eight reader access controller to ensure unparalleled physical security.

Key Features

- Enterprise-level device for centralized control
- Supports access with both IN/OUT readers
- Multiple programmable input/output
- Local programming on device
- 30K users and 55K transactions storage

4 DOOR/8 READER IP CONTROLLER

PROTECTED ENCLOSURE

30,000 EMPLOYEE DATABASE

55,000 TRANSACTION STORAGE

DOOR INTERLOCKING

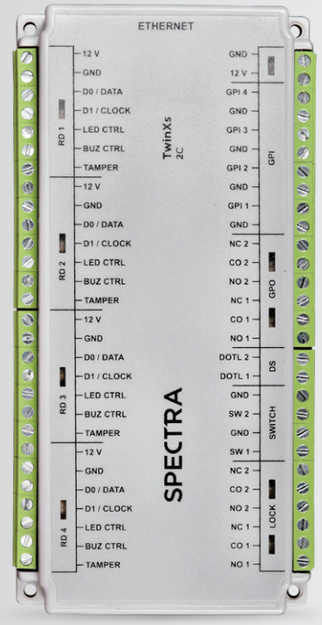
Application Areas Access Control

TwinXs 2C

Robust entry level cost effective two door/four reader access controller with high level of security.

Key Features

- IP-based access controller
- Supports LED, buzzer and tamper inputs
- Rugged hardware with extensive lifespan
- Fail-safe and fail-secure access mechanism
- 30K users and 55K transactions storage



2 DOOR/4 READER IP CONTROLLER

PROTECTED ENCLOSURE

30,000 EMPLOYEE DATABASE

55,000 TRANSACTION STORAGE

DOOR INTERLOCKING

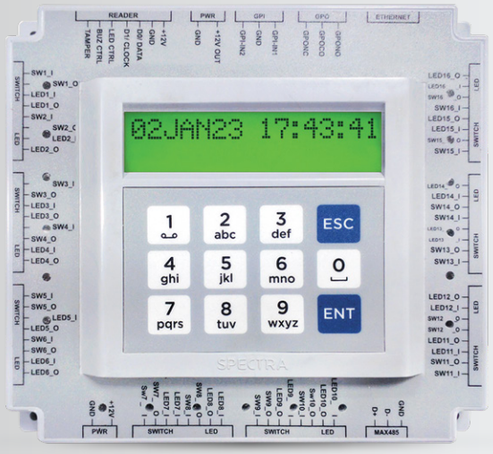
Application Areas Access Control

EAC

Reliable elevator access controller, designed to allow only authorized user to access an elevator.

Key Features

- Smart building automation with elevator access
- 16 floor controller expandable up to 64 floors
- Local programming on device
- Real-time data monitoring
- 30,000 users and 55,000 transactions



16 FLOOR CONTROLLER

8 BIT, 42 MHZ PROCESSOR

CONFIGURABLE WIEGAND INTERFACE

COMPACT DESIGN

INBUILT 10MBPS ETHERNET

Application Areas

Access Control

DIT

Highly reliable and real-time Door Interlocking Terminal solutions with an integrated IR Switch.

Key Features

- Fully configurable door interlocking logic
- Live monitoring of door status
- Simplified architect with minimal cabling
- Tricolor LED and buzzer for various events
- Inbuilt IR switch with controller

INTEGRATED IR SWITCH

IP65 RATED HOUSING

TRI COLOR LED

RS-485 COMMUNICATION

ALARM MONITORING (OPTIONAL)

Application Areas

Door Interlocking

ENTERPRISE SOFTWARE SOLUTIONS

iApp › Integrated Applications

All applications on a single integrated platform offer great flexibility in implementing enterprise wide identity solution. Application specific expertise has been built into this, making it hallmark of all spectra solution offerings.

- Fully web based application on ASP.Net
- Scheduler, Synchronizer and Notifier
- Flexible report builder for unlimited resports
- Configurable third party integration for master & transactions
- Flexible master, lookups with configurable fields
- Integration with third party hardware like fire alarm, CCTV, BMS
- Configurable workflow for each application
- Active directory integration for single sign on

TIME ATTENDANCE

Comprehensive policy framework helps in incorporating most of the company specific rules. Organization wide hierarchy management with unlimited user defined levels. Employee grouping can be done on different parameters as per their roles. Central HR can access data for all locations with effortless inter-location transfers. Powerful reporting and analysis module ensures that all MIS related requirement is addressed.

ACCESS CONTROL

Real time monitoring helps in keeping absolute control over physical access of a designated area. Our unique floor map view aids the same along with alerts on configured alarms. Various configurable access rules like global anti-passback, dual access, minimum occupancy etc. can be applied on an access groups. Software has capabilities to manage up to 65,000 controllers with 250 access groups.

VISITOR MANAGEMENT

A visitor can either pre-register his visit or can have on site registration. Post capturing all vital info like fingerprint, photo and other details, an email or SMS can be sent to the host along with alert on desktop Notifier. User can configure alert email/SMS templates. Sync with physical access control for limited access to visitor and complete conference management module.

CANTEEN MANAGEMENT

Canteen application supports coupon less management with prepaid and postpaid transaction facility. User can configure up to 250 items masters with configurable time based availability. The application also generates vendor wise reports for payable verification. Finally, all canteen usage throughout the month can be integrated seamlessly with payroll software.

CONTRACT MANAGEMENT

Contractual workforce management helps in maintaining contract compliances and its workforce related details. The system allows the user to handle multiple contracts which can be bifurcated by area of operation & area of work and is managed on a single database. The user can also configure the policies, shift, workflow, leave types etc. based on contractor, location, company, department, category, or any combination of these.

SELF SERVICE PORTAL

Employee login on ESS portal helps them to post request for attendance regularization, leave, late & early permission, tour, overtime etc. Also they can authorize visitor, book conference, schedule appointments, check canteen consumption through the portal. An approver can view and sanction all the regularization requests of their subordinates from his login. Moreover, There is a cross platform mobile application available to perform the tasks in ultra flexible way.

Available on : ANDROID APP ON Google play | Available on the iPhone App Store

PRODUCT SELECTION GUIDE

Biometric Fingerprint Devices

MARQUEE CLIENTELE

Customers are the best mirror and reflect true quality of work done by any solution provider. All our clienteles are our core strength, we are delighted to serve them.

ZYDUS LIFESCIENCES

2350+ Controllers ▸ 24,000 Users ▸ Active Since 2001

Leverages all applications across 50+ locations, utilizing attendance software with 14,000 Mobile ESS users, fully integrated with Darwinbox. (Fingerprint, EM)

TORRENT PHARMACEUTICALS

850+ Controllers ▸ 12,000 Users ▸ Active Since 2004

We have implemented all our applications & products with installations at 9 locations. The key highlight is integration with SAP & our ESS portal with their software. (Fingerprint, EM)

LUPIN

950+ Controllers ▸ 15,000 Users ▸ Active Since 2014

Implemented four applications on single iApp platform viz. attendance, access, visitor & canteen management with high level SAP and SSO integration. (Fingerprint, Mifare)

SUN PHARMACEUTICAL

870+ Controllers ▸ 20,000 Users ▸ Active Since 2009

India's largest pharma company upgrades to centralized attendance & access with Success Factor integration across 34+ locations, emphasizing cGMP compliance and area control.

AMRITA VISHWA VIDHYAPEETH

650+ Controllers ▸ 3,000 Users ▸ Active Since 2021

Implemented web based attendance, access & visitor management. Solution is on OSDP. QR is being used for the visitors and in patients with inbuilt card and BLE. (Face, Desfire)

VEDANTA (CAIRN)

550+ Controllers ▸ 10,000 Users ▸ Active Since 2016

Implemented web based attendance, access & contractual compliance modules. Devices are working in harshest weather conditions in outdoor spread out geography. (Fingerprint, HID)

SBI GROUP

300+ Controllers ▸ 5,000 Users ▸ Active Since 2018

SBI, following PCI DSS, selected Spectra after rigorous VAPT. We implemented a datacentre based application in DMZ with redundancy & integrated with employee bot. (Fingerprint, Desfire)

BHARAT ELECTRONICS (BEL)

150+ Controllers ▸ 14,000 Users ▸ Active Since 2010

Biometric attendance for mutliple locations with 3rd party integration, implemented our flagship product BioScribe 3S on flap barrier with 4G GSM connectivity. (Fingerprint, Mifare)

ROYAL ENFIELD

250+ Controllers ▸ 14,000 Users ▸ Active Since 2016

Implemented attendance and access control for the entire workforce along with the first-of-its-kind industrial IoT for associate management (Fingerprint, Mifare)

INDIA INFOLINE (IIFL)

210+ Controllers ▸ 16,000 Users ▸ Active Since 2007

By understanding their core requirement of automated stream-lined attendance, we have successfully deployed attendance solution covering 110+ locations. (Fingerprint, EM))

TATA CONSULTANCY SERVICES

300+ Controllers ▸ 20,000 Users ▸ Active Since 2013

We are proud to be empanelled partner for attendance/access hardware, our devices are fully integrated with TCS iON platform, catering large educational institutes. (Fingerprint, Mifare)

TELEPERFORMANCE

500+ Controllers ▸ 50,000 Users ▸ Active Since 2013

This BPO client is using our legacy access control panels with enterprise level access software for their offices in west, north, south India for their large work force. (Fingerprint, EM)

WELLNESS FOREVER

400+ Controllers ▸ 7,000 Users ▸ Active Since 2008

Well-known pharmacy chain adopts Spectra's web-based attendance solution for 400+ stores in India, integrating data with Spine HRMS. (Fingerprint)

ULTRATECH CEMENT

85+ Controllers ▸ 2,000 Users ▸ Active Since 2012

This cement giant is using our smart card & biometric solution for T&A, access control, canteen. The footprint of our system is expanding along with their growth. (Fingerprint, Mifare)

GHCL

100+ Controllers ▸ 5,000 Users ▸ Active Since 2008

GHCL is using our attendance system for more than a decade in their chemical unit. Recently we implemented complete iApp solution for their textile division too. (Fingerprint, Mifare)

LARSEN & TOUBRO

70+ Controllers ▸ 2,800 Users ▸ Active Since 2017

This engineering bellwether is using our advanced 3S series biometric access control solution for one of their facilities, apart from using our old legacy products. (Fingerprint, Mifare)

MARQUEE CLIENTELE

Customers are the best mirror and reflect true quality of work done by any solution provider. All our clienteles are our core strength, we are delighted to serve them.

ALJAMEA-TUS-SAIFIYAH

360+ Controllers ▸ 1000+ Users ▸ Active Since 2021

One of the biggest universities in the world, Aljamea-tus-Saifiyah uses our access control solution for their students, teachers and hostel staff. (Card)

EDELWEISS FINANCIAL SERVICES

160+ Controllers ▸ 5,000 Users ▸ Active Since 2015

India's leading diversified financial services co. is using our access control with seamless integration of attendance data with their HRMS solution, pan India locations. (Fingerprint, EM)

CIPLA

300+ Controllers ▸ 10,000 Users ▸ Active Since 2010

Well known name in pharma space, they are using our biometric access devices at their various plants located at Goa ranging from our old legacy to new product series. (Fingerprint, EM)

TABLE SPACE

160+ Controllers ▸ 10,500 Users ▸ Active Since 2018

A co-working startup managing 5M sq ft adopts Spectra's access control for seamless tenant access and occupancy tracking across all locations. (Fingerprint, HID)

SATTVA

150+ Controllers ▸ 4,000 Users ▸ Active Since 2023

Implemented web based software for access control with facility management. Multi technology card reader with inbuilt BLE integrated with doors and Flap barriers. (Desfire, BLE)

FIRSTSOURCE SOLUTIONS

150+ Controllers ▸ 18,000 Users ▸ Active Since 2012

Access management was a challenge for them due to large workforce. We have successfully implemented centralized access control solution for all their locations. (Fingerprint, EM)

INTAS PHARMACEUTICALS

300+ Controllers ▸ 2,000 Users ▸ Active Since 2015

They have used our DIT products earlier, recently they awarded us a project of 150+ doors for both access control as well as door interlocking for one of their upcoming plant. (Fingerprint, EM)

CTRLS

450+ Controllers ▸ 1,500 Users ▸ Active Since 2015

Renowned Data centre company implemented Spectra access control at multiple locations with most stringent security compliances requirements of its clients. (Fingerprint, Proximity)

BHEL

115+ Controllers ▸ 4,000 Users ▸ Active Since 2015

Provided them with the template on card facility resulting into hassle free biometric attendance solution with third party integration as per their requirement. (Fingerprint, Mifare)

KALYAN JEWELLERS

120+ Controllers ▸ 2,500 Users ▸ Active Since 2015

Implemented fingerprint-based attendance management at all locations for India's top jeweller. Integrated with in-house HRMS for tabulating 100% accurate attendance. (Fingerprint)

NAVI TECHNOLOGIES

100+ Controllers ▸ 4,000 Users ▸ Active Since 2022

Implemented web based software for access control with multi technology reader with inbuilt BLE. Authentication is done with app running on background for iOS and android. (NFC, BLE)

BPCL

150+ Controllers ▸ 15,000 Users ▸ Active Since 2007

Implemented access & visitor solution for their bottling plants, integrated with flap barriers/turnstiles for all users, managing large people inflow and outflow. (Fingerprint, EM)

BENNETT UNIVERSITY

290+ Controllers ▸ 8,500 Users ▸ Active Since 2018

Replaced existing biometric system to provide high end wall mounted & handheld biometric devices supporting 25,000 users for class room & hostel attendance. (Fingerprint, Mifare)

FIAT INDIA AUTOMOBILES

120+ Controllers ▸ 3,000 Users ▸ Active Since 2014

Spectra provided them with the bespoke attendance solution for their plant which helped them to synchronize the data via FTP. A unique solution duly implemented. (Fingerprint, Mifare)

IIT MADRAS

100+ Controllers ▸ 5,000 Users ▸ Active Since 2008
